Our company now has a small fleet of fully-wrapped trucks and SUVs which we have experienced an enormous response from the general public. I cannot stress enough to bring your company needs to JaxWraps and discover what I found out. Their service and sales departments are first rate, their creative department is fantastic and the products they use are the best available!

The second day I was driving the car on I-10, someone called my 800# and I made a sale the next day that paid for the wrap in full!
